

FACULTY

Seventy-two percent of all full-time faculty hold the doctoral degree or other highest appropriate degree in their field. Courses are taught by appropriately credentialed faculty, not graduate teaching assistants, with degrees from the top universities in the country, such as Yale, University of Virginia, Virginia Polytechnic, University of Michigan, University of Hawaii, University of Notre Dame, and others.

Judson ranks in the Top Tier of America's Best Universities in U.S. News and World Report. Faculty exemplify high standards of academic excellence as Christian scholars committed to mentoring students.
